

End of Line Packaging Solutions

Robotic Case Packer

The Robot based Case Packer is ideal for top load pick and place of wide range of products viz. bottles, cans, jars, bricks etc.) into American cartons or crates.

Features:

- Shorter cycle times
- High precision movements
- Higher output from a smaller footprint
- Low cost of ownership and increased productivity
- Precise product positioning
- Robust structure
- CE Compliant
- Open and ergonomic design
- Ideal for fitting into existing packing lines

*Safety Fence in the front removed for sake of picture

Technical specifications:

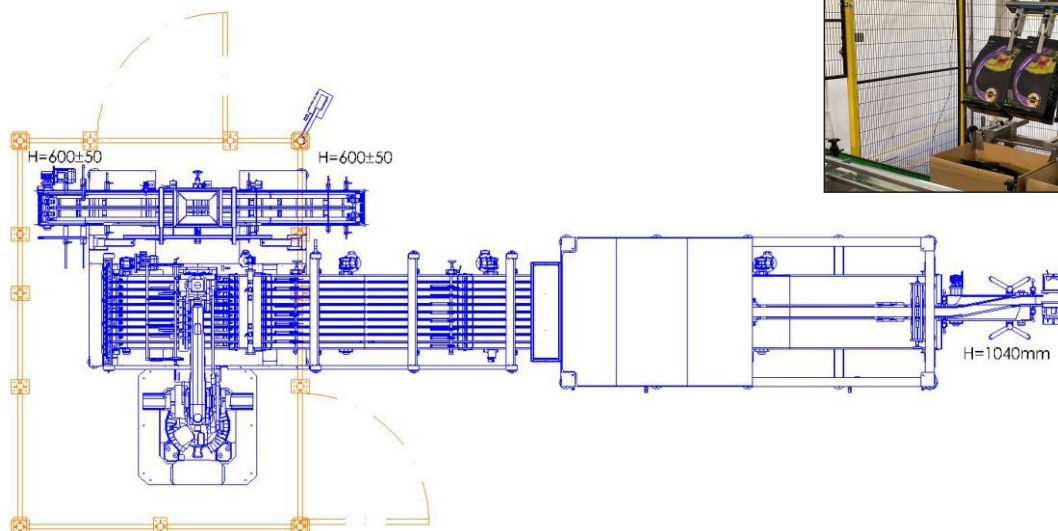

Power Supply	400 V- 50 Hz, 3Ph+N+G
Power Consumption	7 kW
Air pressure	6 Bar
Air pressure	80 NI/min
Nominal production	Variable in function of configuration

Note: Depending on application & design, the above utilities, speeds, case range can change.
